Fully-Integrated Engineering At Your Service

Above:
Complex fabrications with exotic welding procedures are no problem at A&G Price

Below:
The workshop has full non-destructive testing (NDT) facilities

A&G Price Ltd's dedicated fabrication and heavy machining facilities are available 24 hours a day for essential refurbishment work. They are fully equipped for all: machining, welding, fabrication, metallurgical and NDT inspection, assembly, custom finishing and commissioning needs. A&G Price prides itself on its depth of experience and has a proven ability to fabricate to military and marine specifications.

A&G Price utilises a comprehensive 1400m² fabrication/ welding shop equipped with two 10-tonne cranes (5.9m under hook) and 1100m² fitting area with a 7.5-tonne crane (5.5m under

hook). Equipment include heavy rollers which can form 25mm steel plates, a guillotine capable of cutting 12mm steel plates, and a press brake able to bend 16m steel plates — all handling material up to 3m wide.

The company can undertake a range of weld procedures, including MMA, MIG, subarc, flux-cored, TIG and exotic weld overlay. Stress-relieving ovens, sandblast and spray paint facilities are also available, along with full engineering support, including in-house design with a CAD drawing and 3-D modelling capabilities.

As a fully integrated engineering works, A&G Price eliminates the need for subcontractors, and so guarantees the high quality and timely completion of all projects — just another example of their commitment to delivering the world's finest engineering solutions to its clients.

Capabilities Offered

- Flexible hours and shift work
- Wet spec paint systems and belzona application
- 3D machining
- Heat treatment facility
- Engineering design
- Telarc ISO 9001: 2000 registered
- Project management
- SM2-qualified NDT personnel
- Foundry and metallurgical facility
- Stainless and bronze
- White metal bearings
